

1 Post-Doctoral Researcher (m/f) in Computational Engineering

The University of Luxembourg (UL) invites applications for a Postdoctoral Researcher position in *Computational Engineering*. In addition to original research in data-driven computational modelling and associated numerical methods, as part of the research team led by Prof. Dr.-Ing. Andreas Zilian (Computational Engineering / FSTC), the position will be actively involved in the creation of a *Computational and Data Engineering Hub for Luxembourg* and will support the Doctoral Training Unit [Data-driven Modelling and Applications](#) (DRIVEN).

- Full-time (40 hours/week) work contract
- Fixed-term 12 months initial contract, extendable up to 36 months in total

Your profile

- PhD in the domain of Computational Engineering
- Background in Statistical Analysis or Machine Learning
- Experience with Python/C++ programming, HPC and associated software development environments
- Track record in graduate/doctoral education
- Excellent trans-disciplinary communication skills
- Very good command of English
- Willingness to work in a multilingual and international environment
- Ability to work independently and as part of a team.

We offer

- A dynamic and well-equipped research environment
- Access to a rich network in science and industry
- Continuous training in scientific and professional skills
- Personal work space at the University of Luxembourg.

Your tasks

- Manage and drive forward your research project
- Disseminate results (journal articles, conferences)
- Conceptualise the *Computational and Data Engineering Hub for Luxembourg*
- Contribute to teaching and doctoral training

Gender policy: UL strives to increase the proportion of female researchers in its faculties. Therefore, we explicitly encourage women to apply.

Application submission: Before proceeding with the submission of your application, please prepare the following documents.

- Curriculum vitae (maximum two pages)
- Motivation letter (maximum two pages) detailing how you meet the selection criteria
- Research statement (maximum two pages) outlining your scientific interests and describing specific project ideas
- Publication list and PDFs of those publications
- Doctoral thesis (final or draft, if draft, then state the expected submission date)
- Full contact details of two persons willing to act as referees
- Copies of diplomas, transcripts with grades, with English, French or German translation

All application documents should be sent to andreas.zilian@uni.lu until 30 November 2018. Please note that incomplete applications cannot be considered.

Selection process: Candidates will be shortlisted based on the criteria detailed above. Shortlisted candidates will be invited for an interview and/or interviewed by phone.

Research work in Luxembourg: Please see the [Foreign Researcher's Guide to Luxembourg](#) for more information on research employment in Luxembourg and the procedures that apply.
